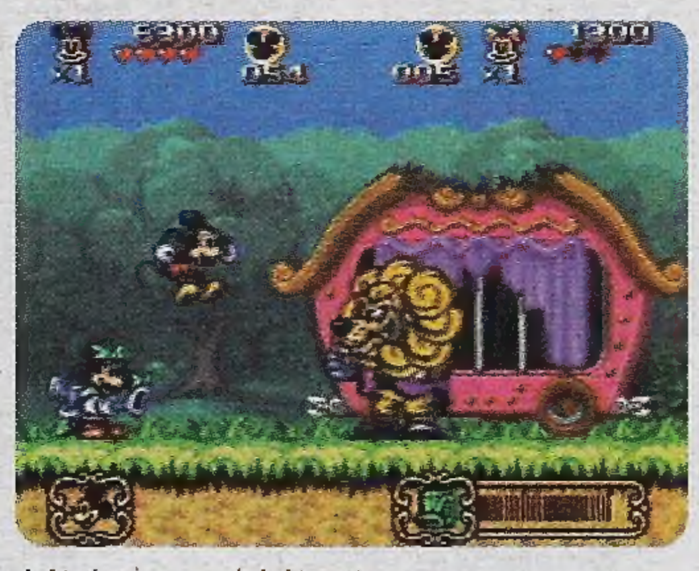
Putting out the fire juggler wasn't on Mickey and Minnie's hot list.



Mickey and Minnie must tame the lion before they become the mane course.

MICKEY AND MINNIE HAVE NEVER FACED A MYSTERY THIS BIG!

"A date at the circus, I can't wait!" says Minnie to Mickey. But when they get there all the performers have disappeared! *"We've got to find the villain who did this!"* says Mickey. So off they go, wearing magical costumes that give them powers to make it through six levels of frozen tundras, haunted houses and more. Can they really bring the circus back to town? *"Come along and see!"* exclaims Mickey.

It's safari, so good, as Mickey and Minnie outrun a turtle in the jungle.

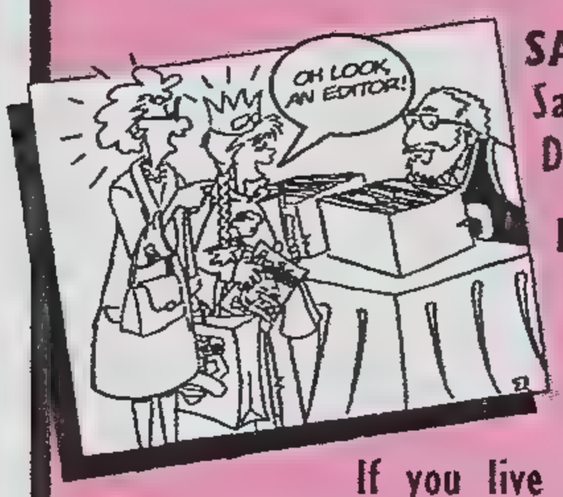
EDITOR'S NOTEBOOK

Dear Archie Readers,

Last month I promised a "Comic Convention Update" for 1995. Archie Comics is definitely scheduled to participate at the following conventions:

NEW YORK COMIC BOOK SPECTACULAR, February 24-25-26, at the Jacob K. Javits Convention Center, Eleventh Avenue and West 34th Street, New York City.



SAN DIEGO COMIC CON, July 27-28-29-30, at the San Diego Convention Center, West Harbor Drive, Downtown San Diego, California.

PHILADELPHIA COMIC BOOK SPECTACULAR, October *(dates to be announced)*, Philadelphia Convention Center in downtown Center City.

If you live in, or are visiting, any of the cities where these conventions are being held, please try to attend. It's a great opportunity to meet some of the Archie artists, writers and, of course, editors. We're always anxious to meet Archie fans in person.

There are other events to which Archie Comics has not yet committed. I'll keep you posted.

In the landmark "Love Showdown Series" Archie would finally choose Betty or Veronica. To everyone's surprise, Archie chose neither! His choice was an old flame from the past....Cheryl Blossom! Cheryl is tough competition for Betty and Veronica. Especially when it comes to Archie. Now, for the first time, you can meet Cheryl Blossom in her own book. This NUMBER 1, CHERYL BLOSSOM SPECIAL is a 48-page full color comic. Watch for it, on sale in February, 1995.

The Solar System

No one knows for sure how our solar system was formed. Many believe it was made of a large cloud of dust and gas. Most of the material was at the center of the cloud where it ignited and became the sun. The rest became the nine planets, their moons, comets, asteroids. The sun then started a strange phenomenon called solar or stellar wind. This stripped the inner planets of their lighter gases. The gases, with the help of the leftover material from the cloud formed the gas giants, known as the outer planets.
